

I would like to defend the current WI No Call Law in the strongest terms possible. It is a wonderful law, and I have been signed up since it was instituted, including renewing recently. My entire family is on the list as well (total of 9 numbers). We do NOT want our private time at home disrupted by telemarketers, and to weaken the state law in order to yield to the federal one would be a horrific mistake. In fact, I am on the national list as well, but only to be counted as a supporter of the concept of peace and privacy. I actually wish the laws could be even more stringent, blocking political callers as well...maybe some day! KEEP THE WISCONSIN LAW STRONG AND VALID - MAKE IT THE NATIONAL STANDARD!!!!
